COMMONLY ASKED QUESTIONS

WHAT IS A WATCH PARTY?

A watch party is simply a small group of people (even your own family!) who meet online or in-person to experience the worship livestream together. They engage with the service, build community, and encourage each other to grow in their walk with Jesus.

WHERE CAN A WATCH PARTY TAKE PLACE?

A watch party can take place on Facebook or in-person.

FACEBOOK: Find the worship service video you want to watch, then click the “Start” button (next to “Watch together with friends or with a group”). The streams are synced so that everyone can comment and react in real-time, creating a shared viewing experience among a more specific group of people. **To simply share the streaming service with others, you can click on the links at the bottom of this page under “Ways to Watch.”**

IN PERSON: LIFE Groups, friends, and neighbors can gather around a service time to experience it together in the same place. (Families with children could queue up our “children’s worship” in a different room for them to engage with.) Another option is for groups to broadcast the service from a more public space (i.e. front yard, driveway, or other common area) and ask those nearby to pull up a seat.

WHO WOULD MAKE A GREAT WATCH PARTY HOST?

- Someone with the gift of hospitality and loves to have people in their home
- Someone who isn’t ready to worship in large gatherings but is ready for smaller ones (*30 people or less*)
- Someone who wants to invite a lost neighbor or friend to watch the online gatherings in a potentially less intimidating environment
- Someone who wants their home to be a gospel outpost in their neighborhood
